- A. LAYOUT AND FLOOR PLANS OF UNITS. Each Unit has the number of bedrooms ("Bed") and bathrooms ("Bath") noted above. The layouts and floor plans of each Unit are depicted in the Condominium Map. None of the Units contain a basement.
- B. APPROXIMATE NET LIVING AREAS. The approximate net living areas of the Commercial Unit and the Residential Units were determined by measuring the area between the interior finished surfaces of all perimeter and party walls at the floor for each Unit and includes the area occupied by load bearing and nonloadbearing interior walls, columns, ducts, vents, shafts, stairways and the like located within the Unit's perimeter walls. All areas are not exact and are approximates based on the floor plans of each type of Unit.
- C. COMMON INTEREST. The Common Interest for each of the seven hundred fifty-two (752) Units (the Commercial Unit and the 751 Residential Units) in the Project is calculated based on dividing the approximate net living or commercial area of the Unit, as applicable, by the total net area of all the Units in the Project. In order to permit the Common Interest for all Units in the Project to equal exactly one hundred percent (100%), the Common Interest attributable to Residential Unit No. 4115 was increased by 0.00001%.

- D. COMMERCIAL UNIT CLASS COMMON INTEREST AND RESIDENTIAL UNIT CLASS COMMON INTEREST. The Commercial Unit Class Common Interest is calculated for the Commercial Unit in a fair and equitable manner. Since currently there is only one (1) Commercial Unit, one hundred percent (100%) of the Class Common Interest is held by Unit No. C-100. The Residential Unit Class Common Interest is calculated based on dividing the approximate net living area of the Residential Unit by the total net living area of all Residential Units in the Project. In order to permit the Residential Unit Class Common Interest to equal one hundred percent (100%), the Residential Class Common Interest to Residential Unit No. 4115 was decreased by 0.000006%.
- E. PARKING STALLS, PARKING STORAGE/TOWER STORAGE/STORAGE ROOMS. The Condominium Map depicts the location, type and number of parking stalls, parking storage, tower storage and storage rooms in the Project. All parking stalls (including guest parking stalls), parking storage, tower storage and storage rooms not otherwise identified above as a Unit Limited Common Element to a specific Unit, shall be a Unit Limited Common Element to the Resident Manager Unit, Unit No. 915. Parking storage, identified as "PS" on the Condominium Map shall become a Unit Limited Common Element, together with the designated parking stalls, to the specific Unit set forth in this Exhibit "B". A Residential Unit Limited Common Element parking stall shall not be separated from its adjoining overhead parking storage. Any Residential Unit Limited Common Element parking stall must be reassigned and exchanged together with its adjoining parking storage and similarly, any overhead parking storage must be reassigned and exchanged together with its adjoining Residential Unit Limited Common Element parking stall. All storage areas identified on the Condominium Map with "S" (tower storage or storage room) or "PS" (parking storage) and a number are Unit Limited Common Elements appurtenant to the Resident Manager Unit, Unit No. 915, unless otherwise assigned and redesignated as a Unit Limited Common Element to another Unit. Developer has the reserved right to redesignate such parking stalls, parking storage, tower storage and storage rooms currently designated as Unit Limited Common Elements appurtenant to the Resident Manager Unit to other Residential Units or the Commercial Unit(s) in the Project as Unit Limited Common Elements appurtenant to such Residential Units or Commercial Unit(s), respectively.
